SUMMARY

BS Artificial Intelligence undergraduate with a passion for AI, programming, and problem-solving. Eager to apply technical skills and gain practical experience through real-world opportunities.

PROJECTS

Banking System

Developed a C++ console-based banking system with account management, transactions, and file handling for data persistence.

Flight Ticket Reservation System

Developed a C++ flight reservation system with ticket booking, multiple user options, and admin features such as flight management and discount application using OOP concepts.

Truck loading Optimization System

Developed a Truck Loading Optimization System in C++ to optimize cargo space utilization and improve loading efficiency.

Hospital Bed Management & Patient Analytics System

Developed a Hospital Analytics System in Python to monitor bed occupancy, staff allocation, and patient data efficiently.

EDUCATION

Bachelors of Artificial Intelligence

Bahria University, Islamabad

08/2024 – Present

COURSES

Python for Data Science, AI & Development

IBM

Introduction to Artificial Intelligence (AI)

IBM

Data Science & Analytics

HP Life

Critical Thinking in the AI Era

HP Life

SKILLS

Communication | Problem-solving | Teamwork | Time management | Adaptability
